

Technical Specifications

Model: OZ0020

Power Consumption:

Nominal min. 12 V (max. 50 ?)
15 mA

Range max. 30 V (50...900 ?)
4-20 mA

Pressure 10 mWS, 1 bar,

Temperature >0 °C ... <50 °C

Flow Rate 30 l/h

Ozone Sensor OZ0020

Basic Function

This ozone sensor is designed to measure dissolved ozone. It requires very little maintenance once it has been setup. It is small and easy to use.

Advantages

- Small and Easy to use
- Measures dissolved ozone
- 4-20mA
